

Create a Console Application to take the input of 5 contacts from the user and display the list of contacts as Follows

Name	Cell Number1	Cell Number2	Group
Ali	0300-1234567	0300-1234567	Friend
Ahmed	0300-1234567	0300-1234567	Teacher
Ali	0300-1234567	0300-1234567	Friend
Ali	0300-1234567	0300-1234567	Friend

Hint: You have to create two classes Contact and ContactGroup

ContactGroup class has Id and Name.

Contact class has Id, Name,CellNumer1, CellNumber2, Email, DateOfBirth and ContactGroup.
